Brrr-cky B- You said Phil got "the Flu" recently, but what does that actually mean? Why does Phil sometimes slow down in his analysis of submitted posts? If you can explain it you'll have to dumb it down for me, I've never coded anything more than a simple animation.

Hear yea hear yea, h e r e ' s t he N e W s!

[Announcement]

A pretty huge announcement is coming today. It will change a lot of what you're used to. I'm finishing up testing a new build of Home Base and once I have everything I need, I'll share the news with you all.

Second thing! There's a new book series called Kiranmala and the Kingdom Beyond. The second book "Game of Stars" just came out on 2/26, the same day as the WoF graphic novel. I'll be posting some stuff about it on the forums and will have a book birthday in Home Base tomorrow evening (EST) to celebrate the launch as well - if you've read the first book or the series sounds interesting to you, let me know!

[Question Corner]

@Brine But would you still subscribe, that's the real question!

@Rune that's so realistic haha. I wish I had a future version of myself looking out for me for stuff like that!

@Singularity That's hilarious xD Love the twist on Bill Nye. You know, Phil has been causing y'all issues which stinks but I really do appreciate the content you've all come up with surrounding him. Even the name "Phil." And of course all the posts about him. Making the most of an annoying situation, I respect that.

@Scientist I wish I could completely explain it. It really is like a pipe that gets clogged someties and then it needs a push to keep going.

@Cobra it looks like the majority of your posts have come through. It looks like you edited one of the ones that didn't come through and were successful. The other one I'm seeing that got filtered is in the Hybrid Academy RP and it was due to description of violence, you can try editing the language a bit.

@Dismay I had not, but I just checked out one of their videos and it's claymation so I instantly know I'll like them.

You can report your own post because...well....uh....you just can. Some people actually use it to let me know of conflicts that are going on on the forums, or to ask me to delete a post of theirs if it double posted. So it can be helpful!

[Forum Prompts]

You've grown up your whole life thinking that when you were 18, you'd take over your kingdom as ruler and defend your lands against dark forces that would corrupt it. On your 18th birthday, you are given the traditional crown and sceptre and shown to your throne. But you're also given an old book. This old book details the history of your land - and you discover the supposed "dark forces" don't exist. That was all made up many centuries ago during a time of strife to bring the people together. This lie has persisted through generations, with no one knowing how to end it. How do you choose to lead?

I mean, if I subscribed then I'd be supporting my future self and all his creations and if I didn't that'd mean I don't care.

For this new one, I'd just tell the people under my rule. I'd let them decide what to do with this new information, and decide whether or not I'd be fit to rule.

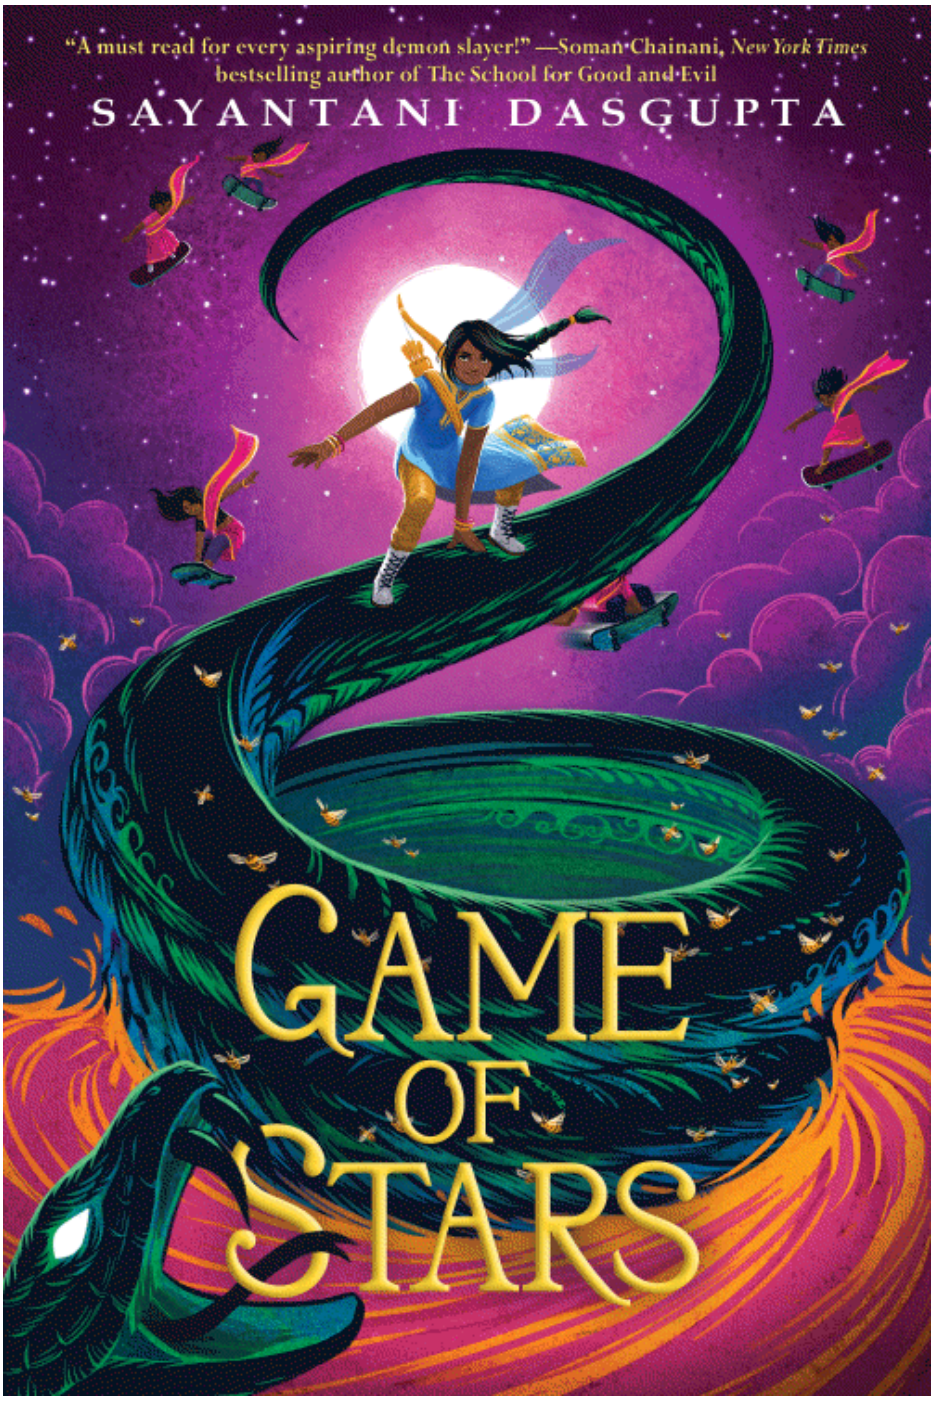
Apologies for the delay everyone, I was having some trouble using specifically the WoF forums last week. I think it was just me/our Scholastic network but please let me know if you were seeing the WoFMB redirect to a Wings of Fire book page!

[Question Corner]

@Tidalwave It was 3/6 in the evening (around 5pm EST) but I didn't want to push it too hard on the forums since I'd just, well, announced the end of them. It felt wrong. Sorry about the lack of information there. Are they books you've read? Here's a gif of the book cover that I hope you find cool :)



"A must read for every aspiring demon slayer!" —Soman Chainani, New York Times bestselling author of The School for Good and Evil
SAYANTANI DASGUPTA
GAME OF STARS

@Kitsune @Key I found them in the manual queue and pushed them through!

@Singularity Yep, you'll be able to post stories and fanfictions.

@Imagine There's only a few weeks left of the forums, I'll still be banning trolls but for star farming I think we can be a little lax on the ban-front :P (Not saying everyone should go out and star farm right meow, but hey I'm not going to take away 24hours from someone who will miss this place.)

[Forum Prompts]

Prompt-o!

It's the end of the universe. The planets begin to implode, sucking up all matter surrounding them into themselves and sputtering out of existence. You and your compatriots managed to escape just in time. You're fleeing through space in the oldest interdimensionary transport device you've ever seen. It was the only one left, and makes a ton of weird, creaking noises, but hey - you're alive. You all look at each other. This is it. You have to dimension shift now, or it'll be too late. You can feel your spacecraft start to whine as you keep pushing it to resist the gravitational pull of a thousand black holes. As a team, you flip all the

necessary switchs, ignore all the warnings, and press the Big Red Button that says to push "only in an emergency." Here we go, a whole new future you think to yourself, as your spacecraft manages to rip open space-time portal. Everything around you turns blinding white.

Where's the warning section? Also, I noticed that a thread made by Jaqcuelyn was deleted; was it because of the discussion about the Loch Ness Monster? Because we were trying to stop that conversation, so I don't know why it'd have to be deleted unless there was a post I didn't see.

I am with fault too. I'm a short-tempered impulsive little creature that sent in two rebuttals instead of staying calm. I brought a dagger to a duel and I shouldn't have done that.
